Born at first light. Brewed with intention.

Aurora Coffee Co. began as a quiet ritual — a single cup shared at sunrise in the hills above Chikmagalur. We work directly with small-lot farmers across South India, sourcing single-origin beans roasted in micro batches at our Bengaluru roastery.

Every cup is an invitation to slow down, to notice the first warm light of the day, and to begin again — better.

BY THE NUMBERS

12+

Single-origin lots

Founded

MISSION

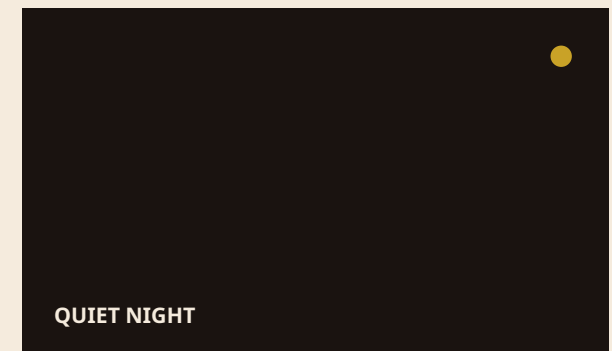

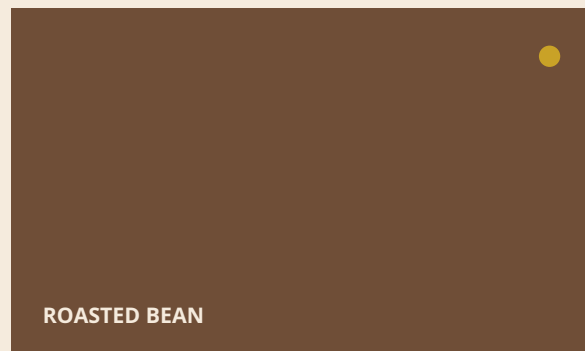

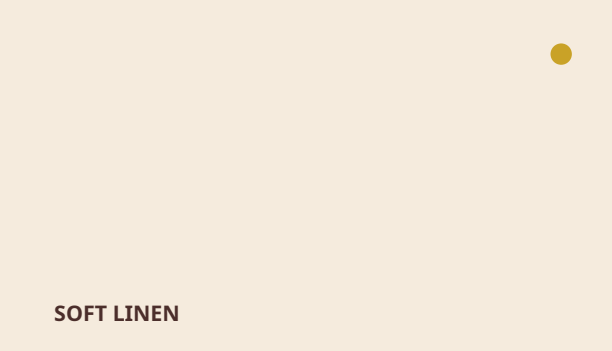

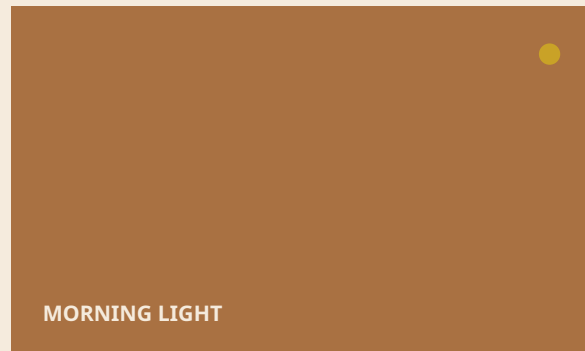

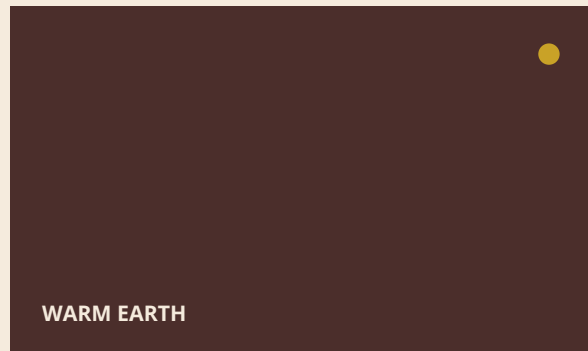

To craft specialty coffee experiences that awaken the senses and honour the hands that grow each bean.

VISION

To become India's most trusted modern specialty coffee brand — known for craft, transparency and warmth.
